

## CORPORATE STRUCTURE CHANGES AT INTERFLOW

Interflow has made three new executive appointments to the company's leadership team.

Andrew McDonald has become Interflow's new Chief Financial Officer while Lisa Claudino will occupy the role of Executive Manager, People and Culture.

Daniel Weaver has taken on the role of Deputy Chief Operating Officer in addition to his role as Executive Manager for Central

Region and Engineering Services. Mr Weaver said "It is an exciting time as our industry grows and Interflow continues to challenge itself to remain the market leader in infrastructure renewals.

"As we grow we must ensure that we stay true to our core values of honesty, reliability and competence, which is only achieved when we have the right people in an appropriate organisational structure."

The changes are part of a new corporate structure which is designed to support growth and come after a review of the company's overall management structure.

L-R: Andrew McDonald, Lisa Claudino, and Daniel Weaver.
