# Health, Safety and Environment

## HSE Risk Events

At Interflow, safety is one of the pillars that underpins everything we do. We are committed to continual improvement in the way we manage our Operations, Environmental and Safety obligations.

A successful risk and assurance framework and management system recognises that Health, Safety and Environment (HSE) 'risk events' are far from static. Exposure to risks and the effectiveness of our control measures may alter over time with causal or contributing factors always having a varying level of influence.

At Interflow, we have identified 45 'HSE Risk Events' that we use to perform an assessment of our overall position and performance of HSE. The evaluation of these risk events is then used as a key data set to inform our HSE Risk Profile. We repeat these assessments periodically to better understand the influences of our risks and the performance of our controls. This approach allows us to effectively reduce the uncertainty of HSE risk that the organisation is exposed to.

Having a deep understanding of our risk events assists our organisation to have genuine risk-based decision making, prioritisation of risks/controls and effective allocation of resources.

Our HSE Risk Events are;

Interflow HSE Risk Events (as of 1 <sup>st</sup> February 2020)		
RE0001 Motor Vehicle Accident - Light	RE0016 Exposure to a Dangerous Goods/ Hazardous Substances	RE0031 Spread of Weeds & Disease
RE0002 Fall from Height (Different Levels)	RE0017 Exposure to Psychological Hazards/ Stress	RE0032 Unauthorised Damage to Heritage
RE0003 Contact with Electricity	RE0018 Exposure to Noise	RE0033 Illegal Noise Emissions
RE0004 Exposure to Asbestos	RE0019 Working Above / Near Water Event	RE0034 Disturbance of Acid Sulphate Soils
RE0005 Struck by Falling or Dropped Object	RE0020 Overhead Services/ Hazards Event	RE0035 Disturbance & Disposal of Contaminated Soil
RE0006 Slips, Trips or Falls (Same Level)	RE0021 High pressure water jetting Event	RE0036 Public / Stakeholder Environmental Complaints
RE0007 Exposure to Hazardous Manual Tasks	RE0022 Foreign Body / Object Enters Eyes	RE0037 Soils Erosion on or Near Asset
RE0008 Bites & Stings	RE0023 Lone & / or Remote Working Event	RE0038 Motor Vehicle, Mobile Plant & Portable Equipment Fire
RE0009 Struck by Vehicle	RE0024 Contact with Hot Object / Surface	RE0039 Collision / interaction between mobile plant
RE0010 Underground Services Event	RE0025 Exposure to UV or Extreme Temperatures	RE0040 Worker hit by train in rail corridor
RE0011 Confined Space Event	RE0026 Fire/ Emergency in an Interflow Facility or Worksite	RE0041 Exposure/ uncontrolled release of hazardous biological matter
RE0012 Anti-social behaviour/ Assault or Threat	RE0027 Mobile Plant Rollover	RE0042 Heavy vehicle hazard (non MVA) eg overloaded, roadworthiness, fatigue/ distraction, speed, infringement
RE0013 Trenching & Excavation Event	RE0028 Uncontrolled Release to Land, Air or Water	RE0043 Contact with sharp object/ protruding edge/ rough object
